## Description

The 7250 is a three-piece set of special tools that are used when draining and refilling the automatic transmission fluid in Mercedes-Benz E-Class E350 BlueTEC fitted with the 9-speed 9G-Tronic transmission (transmission type **725.0xx**).

It should be noted that the operator will need a suitable transmission fluid pump with fluid measuring system plus Mercedes-Benz OEM electronic diagnostic equipment which checks fluid level and temperature. Refer to the manufacturer's technical service instructions and documentation for the correct procedure for the specific transmission fitted.

## Components

Ref	OEM	Description
<b>A</b>	725 589 00 90 00	Adaptor (fluid pump)
<b>B</b>	725 589 02 90 00	8mm hex key
<b>C</b>		Dispenser tool

### Additional Laser tools to assist with this job:

4792	Oil ATF Dispenser 7 litre
4986	ATF Adaptor - Mercedes Benz

## Instructions

Refer to Figure 1: the 725.0xx type transmission can be fitted with two different sump types. Component **A** (adaptor – fluid pump) is used with both **A** and **B** sump types; components **B** and **C** are used only on sump type **B**. Refer to the manufacturer's technical service instructions and documentation for the correct procedure for the specific transmission fitted.

### Fluid dispenser tool (C) positions

- Position 1:** Fit and remove component **C**.
- Position 2:** Drain fluid (small amounts).
- Position 3:** Level check.
- Position 4:** Drain fluid (full flow).
